ANNOUNCE PRODUCTION OF NEW EQUIPMENT IN BULGARIA

PRODUCE NEW SPINDLE GRINDERS -- Sofia, Rabotnichesko Delo, 11 Dec 50

Equipment for grinding spindles has heretofore been imported. Kosyu Borisov Buyukliev, a young lathe operator, has now constructed a mechanism for grinding spindles almost automatically. Whereas the grinding previously required 40 minutes, Buyukliev's mechanism accomplishes the same work in 5 minutes. He is now trying to improve his machine further by using "Pobedit," which is employed by Soviet high-speed metal cutters.

HIGH-QUALITY INSULATORS PRODUCED -- Warsaw, Zycie Gospodarcze, 1 Dec 49

The Izida plant has begun the production of high-quality insulators, which previously were imported. Labor competition and efficiency methods are expected to save 7 million levas in 1949.

CANNED-FOOD COMBINE OPENS -- Warsaw, Zycie Gospodarcze, 1 Dec 49

A large canned-food combine equipped with modern machines and installations has begun to operate in Boichinovtsi, Okoliya Mikhaylovgrad.

The entire process of canned-food production has been mechanized. The daily output amounts to 10,000-12,000 cans. A macaroni plant and a mill have also been built in the area where the combine is located. A refrigerating plant and other industrial units are under construction.

Several large houses have been built for the working population of the new settlement, which is expected to number about 5,000 people.

SAVE PAPER, BONES, AND METALS -- Sofia, Izgrev, 9 Dec 50

On 10 December 1950 the Sofia Municipal People's Soviet will conduct a clean-up campaign throughout several districts of the area. Citizens are directed to exclude waste paper, bones, and metals from the trash collection. These materials should be delivered to the Otpadtsi (Waste) State Economic Enterprise.
